6 MODERN CITY APARTMENTS BY BOSQUE & COLINA

Malaga

IN THE CENTRE OF HISTORY

Two thousand years ago, Malaga was inhabited by Romans in the great Roman empire. Eight hundred years later, the city was under Arab rule. Today - another 1200 years has past and this amazing city is once again undergoing a huge transformation. The long history of Malaga reminds itself in real time as Europe's southernmost metropolis is transformed into a Mediterranean hot spot thanks to its rich culture, lively residents and fantastic weather.

Welcome to your home in Malaga 2020.

QUALITY OF LIFE 2.0

At Calle Pozos Dulces 29, we create a modern oasis amidst the narrow alleys and city pulse in the heart of Málaga's Centro Historico. This beautiful century-old property is located just three minutes' walk from Plaza de la Constitución which is fastest accessed via Calle Mártires. On your walk there, Leonardo, the proud owner of MIA Coffee shop will serve you Málaga's best coffee with a constant smile on his face.

RELAX

Next door to Leonardo, less than 100 meters from Pozos Dulces 29, you are offered a breath-taking trip back to year 700 as you step through the gates of the city's most authentic hammam bath, Hamam al Andalus.

Railway Station		23 min	

MEDITERRANEAN SEA

THE ARCHITECT

DR. EDUARDO ROJAS MOYANO

As an architect and Professor Doctor in the School of Architecture of Málaga, I am proud to play my part in the development of Calle Pozos Dulces 29. It's an essential project in my professional career due to the quality and delicacy that we've used in defining every single space, detail and shape of this beautiful building.

THE BUILDING

CALLE POZOS DULCES 29

The façade and patio reflect the soul of the century old building when past elegance meets modern state of the art architecture.

All six apartments in the property have large windows facing the patio, giving them a lovely natural light all year around. The fountain in the patio brings us back to the origin of the name Pozos Dulces (Sweet wells) coming from the wells that provided Catholic monasteries in the area with fresh water during the 15th century.
